

Be Smart. Sell PACLOCK.

See Locksmith "Dick" sell a hockey-puck that's on a **different keyway** than his customer's other padlocks. See Dick's customer become pissed when he learns that he could have had his hockey-puck on the popular M1 keyway (4 or 5 pin)!

Don't be a Dick...

...sell PACLOCK's hockey-pucks with the M1 keyway instead.

*Pacific Lock's 400 Series
Hardened Steel Stepped Back ~ no
wimpy die-cast padlocks here!
Available with the M1 Keyway!!!*

Not even Fortune Brands' Master Lock Company® offers their popular M1 keyway for use in their hockey-pucks! Once again PACLOCK leads the way and offers locksmiths what they need to keep their customers from going to The Home Depot® to buy their padlocks! Stop selling Master Lock®!

*Key these together!
Only from PACLOCK!*
