

There's Strong. And then there's PACLOCK Strong.

"XIC Hockey-Puck" is available in a stepped-back or a flat-back model.

The **ONLY** hockey-puck available that can accept SFIC and KiK cylinders. Now the toughest padlock design can use your high security cylinders.

Patented **"PAC-SHIELD"** is the right way to do high-security, highly-weatherproof. **NO PLASTIC HERE!**

"PL Series" Laminated design is based on our US Military padlock ~ the "100G"

Dual-locking **BALL BEARINGS** means 63% stronger than lever locking, impervious to the shim attack, and is **FAR** easier to operate.

Don't waste money stocking shrouded padlocks. Keep a couple of these add-on shrouds instead.

Built with a solid actuator means this lock cannot be bypassed.

Designed to work with any 1-3/4" wide, rectangular padlock.

Our family stands at the ready to earn your business and your trust.
